OPERATING PERMIT

PERMITTEE

The Sherwin-Williams Company  
Attention: William M. Perry  
11700 South Cottage Grove  
Chicago, Illinois 60628

Application No.: 77040012

I.D. No.: 031600AHG

Applicant's Designation: CEP 20 P

Date Received: October 30, 1986

Subject: Chicago Coatings Plant

Date Issued: January 5, 1987

Expiration Date: December 31, 1990

Location: 11700 South Cottage Grove, Chicago

Permit is hereby granted to the above-designated Permittee to OPERATE emission source(s) and/or air pollution control equipment consisting of three mixers with baghouses and twenty-six storage tanks as described in the above-referenced application. This Permit is subject to standard conditions attached hereto.

Miles A. Zamco, P.E.  
Acting Manager, Permit Section  
Division of Air Pollution Control

**STANDARD CONDITIONS  
FOR  
OPERATING PERMITS**

July 1, 1985

The Illinois Environmental Protection Act (Illinois Revised Statutes, Chapter 111-1/2, Section 1039) grants the Environmental Protection Agency authority to impose conditions on permits which it issues.

The following conditions are applicable unless superseded by special permit condition(s).

1. The issuance of this permit does not release the permittee from compliance with state and federal regulations which are part of the Illinois State Implementation Plan, as well as with other applicable statutes and regulations of the United States or the State of Illinois or with applicable local laws, ordinances and regulations.
2. The Agency has issued this permit based upon the information submitted by the permittee in the permit application. Any misinformation, false statement or misrepresentation in the application shall be grounds for revocation under 35 Ill. Adm. Code 201.207.
3.
  - a. The permittee shall not authorize, cause, direct or allow any modification, as defined in 35 Ill. Adm. Code 201.102, of equipment, operations or practices which are reflected in the permit application as submitted unless a new application or request for revision of the existing permit is filed with the Agency and unless a new permit or revision of the existing permit(s) is issued for such modification.
  - b. This permit only covers emission sources and control equipment while physically present at the indicated plant location(s). Unless the permit specifically provides for equipment relocation, this permit is void for an item of equipment on the day it is removed from the permitted location(s) or if all equipment is removed, notwithstanding the expiration date specified on the permit.
4. The permittee shall allow any duly authorized agent of the Agency, upon the presentation of credentials, at reasonable times:
  - a. to enter the permittee's property where actual or potential effluent, emission or noise sources are located or where any activity is to be conducted pursuant to this permit,
  - b. to have access to and to copy any records required to be kept under the terms and conditions of this permit,
  - c. to inspect, including during any hours of operation of equipment constructed or operated under this permit, such equipment and any equipment required to be kept, used, operated, calibrated and maintained under this permit,
  - d. to obtain and remove samples of any discharge or emission of pollutants, and
  - e. to enter and utilize any photographic, recording, testing, monitoring or other equipment for the purpose of preserving, testing, monitoring or recording any activity, discharge or emission authorized by this permit.
5. The issuance of this permit:
  - a. shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are located,
  - b. does not release the permittee from any liability for damage to person or property caused by or resulting from the construction, maintenance, or operation of the facilities,

## CALCULATION SHEET

Facility The Sherwin-Williams Co

Anal. Eng. Jim Cobb Date 12 29 86

Rev. Eng. \_\_\_\_\_ Date \_\_\_\_\_

I.D. 031600 AH Ø

PN 77040012

Date Rec. 10 30 86

Section 1 This finding has been placed upon the Master Check List to assure the inclusion of all related environmental issues.

Section 2 The application has been filed for the removal of an existing operating permit.

Section 3 The spectra and emission estimates remain unchanged from the CRM review of 01/07/85. The maximum emission factor from the 2/4/85 Memo remains unchanged at 0.7 #/ton solvent and total organic emissions is estimated at 3.46 # for the mixture.

Section 4 This operation remains in compliance with Section 215.301

Section 8 It is recommended that this application be issued

## OPERATING PERMIT

PERMITTEE

Sherwin Williams Company  
Attn: Robert C. Martin  
11541 S. Champlain Avenue  
Chicago, Illinois 60628

Application No.: 82110038I.D. No.: 031600AHOApplicant's Designation: RP-COH87Date Received: September 3, 1987Subject: Resin ManufacturingDate Issued: November 25, 1987Expiration Date: March 31, 1989Location: 11541 S. Champlain Avenue, Chicago, Illinois

Permit is hereby granted to the above-designated Permittee to OPERATE emission source(s) and/or air pollution control equipment consisting of 45 raw material storage tanks, 8 purchased vehicle storage tanks, 94 finished vehicle storage tanks, 4 finished product storage tanks, 4 wash solvent tanks, 8 kettle and reactor receiving tanks, 10 prefilter and thinning tanks, 1 overflow tank, 14 varnish mixing tanks, 6 resin weigh tanks, 3 resin reactors with condensers, 1 kettle (#1) with eductor, scrubber and condenser, 1 kettle (#8) with condenser and scrubber, 3 kettles (#2, #6 and #7) with condensers, small natural gas heaters for all five kettles, 10 condensers for prefilter tanks and Zone Tank Reactor 4 and Auxiliaries as described in the above-referenced application. This Permit is subject to standard conditions attached hereto, and the following special condition:

1. Upon reapplication of this permit the applicant will provide information on the annual usage (calendar year basis) of the compounds listed below and the applicant will also provide information on the maximum and annual emission rates of each listed compound from each emission source:

- Xylene
- Solvent naphtha
- Toluene
- Methyl isobutyl ketone
- Normal butyl alcohol

Page 2

Hexane  
Isopropyl alcohol  
Methyl methacrylate  
Isopropyl acetate  
Cyclohexane  
Normal butyl acetate  
Butyl cellosolve  
Mineral spirits  
Ethanol  
Styrene monomer  
Acrylonitrile  
Phthalic anhydride

It should be noted that the emission sources covered by this permit may be subject to new regulations presently under consideration by the Illinois Pollution Control Board for paint and ink manufacturers emitting volatile organic material. Upon promulgation of these regulations, it will be necessary to comply with their requirements, which may include submission of a compliance program/project completion schedule or appropriate permit applications by the dates specified in the regulation.

Attn: Mr. Terry Sweitzer

Dear Mr. Sweitzer:

Enclosed in duplicate, is an application for an operating permit for our Resin Manufacturing Plant. This plant was previously permitted under permit number 72100425. However, on recent agency computer printouts of operating equipment, many items have not appeared, leading to some question as to what was covered. Consequently, at the suggestion of Mr. Ed Osowski of the Maywood office, we have prepared a new application, consolidating equipment from the original permit and subsequent modifications into one. We are also requesting that permit number 82110038 for Zone Tank Reactor 4 and Auxiliaries be incorporated by reference into this permit.

Items of equipment which were previously permitted are listed in Exhibit A. Items of equipment which have been removed or are no longer in service have been omitted from the list.

This application reflects some changes in operating procedures since the original permit was issued in 1972.

If there are any questions regarding the application, please contact the writer at (312) 821-3102.

Sincerely,

A handwritten signature in cursive script, reading "Robert C. Martin".

Robert C. Martin  
Director/Environmental Services

**STANDARD CONDITIONS  
FOR  
OPERATING PERMITS**

July 1, 1985

The Illinois Environmental Protection Act (Illinois Revised Statutes, Chapter 111-1/2, Section 1039) grants the Environmental Protection Agency authority to impose conditions on permits which it issues.

The following conditions are applicable unless superseded by special permit condition(s).

1. The issuance of this permit does not release the permittee from compliance with state and federal regulations which are part of the Illinois State Implementation Plan, as well as with other applicable statutes and regulations of the United States or the State of Illinois or with applicable local laws, ordinances and regulations.
2. The Agency has issued this permit based upon the information submitted by the permittee in the permit application. Any misinformation, false statement or misrepresentation in the application shall be grounds for revocation under 35 Ill. Adm. Code 201.207.
3.
  - a. The permittee shall not authorize, cause, direct or allow any modification, as defined in 35 Ill. Adm. Code 201.102, of equipment, operations or practices which are reflected in the permit application as submitted unless a new application or request for revision of the existing permit is filed with the Agency and unless a new permit or revision of the existing permit(s) is issued for such modification.
  - b. This permit only covers emission sources and control equipment while physically present at the indicated plant location(s). Unless the permit specifically provides for equipment relocation, this permit is void for an item of equipment on the day it is removed from the permitted location(s) or if all equipment is removed, notwithstanding the expiration date specified on the permit.
4. The permittee shall allow any duly authorized agent of the Agency, upon the presentation of credentials, at reasonable times:
  - a. to enter the permittee's property where actual or potential effluent, emission or noise sources are located or where any activity is to be conducted pursuant to this permit,
  - b. to have access to and to copy any records required to be kept under the terms and conditions of this permit,
  - c. to inspect, including during any hours of operation of equipment constructed or operated under this permit, such equipment and any equipment required to be kept, used, operated, calibrated and maintained under this permit,
  - d. to obtain and remove samples of any discharge or emission of pollutants, and
  - e. to enter and utilize any photographic, recording, testing, monitoring or other equipment for the purpose of preserving, testing, monitoring or recording any activity, discharge or emission authorized by this permit.
5. The issuance of this permit:
  - a. shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are located,
  - b. does not release the permittee from any liability for damage to person or property caused by or resulting from the construction, maintenance, or operation of the facilities,
